

Verwenden Sie Multiplikationsregeln, um den fehlenden Rest für jedes Problem zu bestimmen.

**Antworten**

1)  $937:2 = 468 \text{ r } \underline{\hspace{2cm}}$

2)  $62:10 = 6 \text{ r } \underline{\hspace{2cm}}$

1.                     

3)  $9.032:5 = 1.806 \text{ r } \underline{\hspace{2cm}}$

4)  $90:10 = 9 \text{ r } \underline{\hspace{2cm}}$

2.                     

5)  $2.426:2 = 1.213 \text{ r } \underline{\hspace{2cm}}$

6)  $8.405:2 = 4.202 \text{ r } \underline{\hspace{2cm}}$

3.                     

7)  $484:5 = 96 \text{ r } \underline{\hspace{2cm}}$

8)  $66:10 = 6 \text{ r } \underline{\hspace{2cm}}$

4.                     

9)  $5.232:5 = 1.046 \text{ r } \underline{\hspace{2cm}}$

10)  $28:5 = 5 \text{ r } \underline{\hspace{2cm}}$

5.                     

11)  $4.412:2 = 2.206 \text{ r } \underline{\hspace{2cm}}$

12)  $70:2 = 35 \text{ r } \underline{\hspace{2cm}}$

6.                     

13)  $2.623:10 = 262 \text{ r } \underline{\hspace{2cm}}$

14)  $103:5 = 20 \text{ r } \underline{\hspace{2cm}}$

7.                     

15)  $95:10 = 9 \text{ r } \underline{\hspace{2cm}}$

16)  $9.201:2 = 4.600 \text{ r } \underline{\hspace{2cm}}$

8.                     

17)  $8.491:10 = 849 \text{ r } \underline{\hspace{2cm}}$

18)  $9.329:2 = 4.664 \text{ r } \underline{\hspace{2cm}}$

9.                     

19)  $51:10 = 5 \text{ r } \underline{\hspace{2cm}}$

20)  $167:10 = 16 \text{ r } \underline{\hspace{2cm}}$

10.                     11.                     12.                     13.                     14.                     15.                     16.                     17.                     18.                     19.                     20.

Verwenden Sie Multiplikationsregeln, um den fehlenden Rest für jedes Problem zu bestimmen.

**Antworten**

1)  $937:2 = 468 \text{ r } \underline{1}$

2)  $62:10 = 6 \text{ r } \underline{2}$

1. 1

3)  $9.032:5 = 1.806 \text{ r } \underline{2}$

4)  $90:10 = 9 \text{ r } \underline{0}$

2. 2

5)  $2.426:2 = 1.213 \text{ r } \underline{0}$

6)  $8.405:2 = 4.202 \text{ r } \underline{1}$

3. 2

7)  $484:5 = 96 \text{ r } \underline{4}$

8)  $66:10 = 6 \text{ r } \underline{6}$

4. 0

9)  $5.232:5 = 1.046 \text{ r } \underline{2}$

10)  $28:5 = 5 \text{ r } \underline{3}$

5. 0

11)  $4.412:2 = 2.206 \text{ r } \underline{0}$

12)  $70:2 = 35 \text{ r } \underline{0}$

6. 1

13)  $2.623:10 = 262 \text{ r } \underline{3}$

14)  $103:5 = 20 \text{ r } \underline{3}$

7. 4

15)  $95:10 = 9 \text{ r } \underline{5}$

16)  $9.201:2 = 4.600 \text{ r } \underline{1}$

8. 6

17)  $8.491:10 = 849 \text{ r } \underline{1}$
